FIB 2026 FUTURE IN BALANCE CONFERENCE

ABOUT THE CONFERENCE

The international scientific and professional conference FIB 2026 – Future in Balance: Economics, Psychology and Sustainable Development aims to foster interdisciplinary dialogue and the exchange of knowledge among researchers, academia, and the business sector.

In an era shaped by digital transformation, green transition, and the rapid development of artificial intelligence, FIB 2026 promotes contemporary approaches to building a socially, economically, and environmentally sustainable future.

The conference is organized on the occasion of marking 20 years of successful work of the Faculty of Management and Business Economics, which has, over two decades, affirmed the values of modern, creative, and multidisciplinary education, while continuously supporting ideas, innovation, and new trends in the market.

CALL FOR PARTICIPATION

The Faculty of Management and Business Economics at the University of Travnik invites researchers, academic staff, master's and doctoral students, as well as industry and professional representatives, to submit their papers and participate in **the FIB 2026 – Future in Balance conference**.
